ELECTRICAL SYSTEMS

24 Volt:

4 x heavy duty batteries for engine starting

4 x heavy duty auxiliary batteries

Battery link facility with remote control at helm position

Both battery banks are charged using a voltage sensitive relay that parallels both battery banks when a charging source is present

60 amp battery charger charges both banks of batteries via an automatic switch charging system

Remote battery master switches with control switch at main switch panel

Circuit breakers on all circuits

12v voltage dropper for certain navigation and radio circuits

220/240 Volt:

11Kw diesel generator in own sound shield with water cooled specially silenced exhaust

Automatic fire extinguisher situated by generator

50 amp shore support inlet

Generator/shore support change-over switch

Polarity check system

Earth leakage safety trip

Circuit breakers on all circuits

Power points in: owner's stateroom, guest cabins, galley and saloon area

Shaver points in all bathrooms

OWNER COMMENTS

Part-Exchange Considered

DISCLAIMER

Whilst every care has been taken in the preparation of these particulars, their accuracy is not guaranteed. They are intended as guides only and as such do not constitute a part of any contract. A prospective purchaser is advised to check all particulars and where appropriate and at his own expense to employ a qualified marine surveyor to carry out a survey and/or to have an engine trial conducted, which if conducted by us shall not imply any liability on our part. All dimensions, performance figures & range notes given are approximate and should be treated as a guide only. Pictures may be from a brochure or of a similar vessel. Engine hours shown are correct at the time of preparation of the particulars, but will vary with usage. Availability of specific vessels may be subject to change, we therefore recommend you call for confirmation. N.B. Ribs, dinghies, water toys and out-board engines are not included in the sale unless other wise stated.
